Twirl**

**Stack, twist, balance, wobble and spin...
this towering toy is quite the balancing act!**

Six weighted spheres rest on top of each other combining the science of physics with innovative design. The result is a stacking toy that teaches balance, proportion, color and structure while developing coordination and visual-spatial awareness for all ages.

Little hands will delight in the never-ending discovery of Tobbles. The wobbling motion encourages a sense of touch. Stacking the spheres high to form colorful creations will develop hand-eye coordination while discovering balance.

Children discover color and size sequence while exploring the many ways. Tobbles can be stacked and balanced.

A design-savvy conversation piece, Tobbles can provide hours of abstract fun in the playroom or boardroom.
