

chalktrail®

miles of creative colorful fun

Creativity for sidewalks, parking lots, and streets!

Chalktrail® is so intuitive - kids see it and they get it. Adults get the urge to ride along, too.

Hook Chalktrail® to a bike in a heartbeat. Then get riding! Draw figure eights, wavy meandering paths, perfect circles, fascinating designs by retracing the same route again and again in succession. It's freshly invigorating, beautiful play.

Create a masterpiece with a group of riders. Playing follow the leader becomes thoughtfully creative. No coaxing needed, everybody's caught up in the fun of orchestrating gigantic Spirograph-like creations!
