

HOW TO PLAY

Object:

Shift Coggy's circles into the correct shape and pattern until it matches the challenge card you are solving. Circles on the card that are blank can be any color. The objective is to make sure the colored circles are in the correct spot as shown on the card.

Black and White:

If a puzzle is shown in black and white, flip Coggy over. Play is identical except that white circles are now not "wild". When the puzzle is complete the shape and arrangement of the circles on Coggy will be an identical match to the card.
